

NORTHWEST

SCIENCE & TECHNOLOGY

GUEST EDITORIAL

*by R. Bryce Seidl,
Pacific Science Center* 5

SOUNDINGS

Center to Focus on Aviation Composites 6

Science Lab Under Cashmere Mountain? 8

New Clues Found to Protein-Folding 9

Carbon Copies 10

Spacecraft Captures Comet Dust 11

SFU Center to Study Decorative Wood 11

Great Expectations:
Scientists seek pesticide signals in saliva 12

COVER STORY

Computer Animation 14
by Jeff Wolfe

ENVIRONMENT

Northwest Researchers Wade Through
Ballast Water Issues 20

EARTH SCIENCES

Erratics:
*Geologists study boulders for clues
to ancient floods, icebergs in Eastern Wash.* 24

Ancient Forests Exposed by Retreating
Glaciers in B.C. 28

INNOVATORS

Stirling Technology Company 29

BUSINESS

Investing in Research
Fuels Technology Transfer from U.S.
and Canadian Universities 30

*by Bruce P. Clayman
Simon Fraser University*

Invest Northwest 32

TECHNOLOGY

Life Cycle Assessment 34

Trailskate on a Roll 35

Haptic Interfaces 36

NORTHWEST EXPLORER

Small World Exhibit 38

EDUCATION

Island County Students Confront
Invasive Grass, Educate Community 44

Two Worlds, One Sun:
Sundials Track Time on Mars 47

PERSPECTIVES

Mathematics: The Engine
of Scientific Innovation 49

*by Arvind Gupta, Simon Fraser University
& Ivar Ekeland, Univ. of British Columbia*
