

NORTHWEST

SCIENCE & TECHNOLOGY

SOUNDINGS

- Seattle's PATH 08
- Song of the Universe: Gravity Waves 10
- Assisted Cognition 12
- Terpenoids Found in Fossilized Conifers 13
- Student Teams Send Life Into Space 14
- Holographic Imaging System 14
- Turning Ice Into Fire: Methane Hydrates 15
- One Small Company, One New Product,
a Thousand Possibilities: Evershield 15

COVER STORY

- Living in the Ring of Fire:
*Geologists monitor signs of unrest
in active Cascade volcanoes*
by Danielle Ippolito 18

LIFE SCIENCES

- Pumping Iron at Zero-G 26
- Pulse of Technology:
*Quinton's new generation of
diagnostic cardiology devices* 32
- Garter Snakes Dine on Toxic Newts 33
- UW Researchers Step Closer to
Muscular Dystrophy Cure 33

INNOVATORS

- From the Coastline to the Congress,
Jane Lubchenco Makes Her Voice Heard 34

TECHNOLOGY

- Inspired By Nature:
*Northwest researchers mimic spider silk
to weave new technologies*
by Marita Graube 36
- Informatics: Managing the Biomedical
Information Explosion
by Diane Nielsen 42

EARTH SCIENCES

- The Secret Life of Rocks:
*Looking for life in the hardest places
on Earth*
by Nathan Moore 46

NORTHWEST EXPLORER

- Glorious Gliders:
Northwest pilots test their soaring skills
by Danielle Ippolito 52
